

Paola Cunha

Front-End Developer

Personal Summary

I am a self-taught Front-End Web Developer. Recently, I began to be fascinated by coding, loving the experience of bringing creative projects to life. I am currently seeking for a job either as an intern or part-time to gain my first experience in the field in a company that wants to attract talented people. In return, I will offer my full commitment to the delivery of projects while enhancing my abilities as a Web Developer.

Skills

- **Languages:** HTML, CSS, JavaScript and Python.
- **Framework:** AngularJS.
- **Libraries:** Bootstrap and jQuery.
- **Others:** Git/GitHub.

Education

UDEMY

[AngularJS for Beginners](#) (June - 2019)

UDACITY

[Nanodegree, Front-End Web Development](#) (March - 2019)

Projects:

- [Portfolio](#): The goal of this project was to learn how to replicate a design mockup, displaying images, descriptions and links to each of the portfolio projects completed through the course as well as developing a responsive website using Bootstrap Library.
- [Pixel Art Maker](#): The purpose was to demonstrate understanding of the interaction with the DOM by adding event listeners to implement a function that dynamically creates a grid that the user can interact with.
- [Memory Game](#): In this game, I had to demonstrate my JavaScript proficiency, which I developed using Pure JavaScript.

Interests & Hobbies

- Volunteering work at the Auckland City Mission.
- I enjoy reading non-fiction books, being connected to the nature on the weekends and exercise daily.
