Dear Hiring Manager,

I am applying for the Junior Web Developer position that has recently become available. I have been looking for a challenging internship as a Web Developer, hoping to get my first work experience and improve my skill set, which includes:

- HTML
- CSS
- JavaScript
- Python
- Bootstrap
- jQuery
- ES6
- Git/GitHub

I may not have all the qualifications needed for this opportunity. However, I am a hard worker and motivated to learn new skills and advance my career.

Attached is my resume that contains detailed information on my qualifications and three projects from my Nanodegree course.
