👤 PERSONAL SUMMARY

I am a self-taught Front-End Web Developer, passionate about technologies, keeping up-to-date on industry trends and advancements.

While looking for my first job opportunity, I am developing my programming skills working as a volunteer for a non-governmental organization in Auckland.

Now, I feel prepared and confident to start working for a company which wants to attract talented people. In return, I will be an excellent addition and offer my full commitment.

📑 SKILLS

- **Languages:** HTML, CSS, JavaScript and Python.
- **Framework:** AngularJS.
- **Libraries:** Bootstrap and jQuery.
- **Others:** Git/GitHub and WordPress.

💼 WORK EXPERIENCE

➢ Auckland Medical Research Foundation (Present)

Volunteering to the AMRF developing a new design for their website using WordPress 5.2.2 and Elementor Builder plugin with a focus on mobile-friendly.

🖥 EDUCATION

UDACITY

Nanodegree, Front-End Web Development (March – 2019)

Projects:
- Portfolio: The goal of this project was to learn how to replicate a design mockup, displaying images, descriptions and links to each of the portfolio projects completed through the course as well as developing a responsive website using Bootstrap Library.
- Pixel Art Maker: The purpose was to demonstrate understanding of the interaction with the DOM by adding event listeners to implement a function that dynamically creates a grid that the user can interact with.
- Memory Game: In this game, I had to demonstrate my JavaScript proficiency, which I developed using Pure JavaScript.

🤲 INTERESTS & HOBBIES

- Volunteering work at the Auckland City Mission.
- I enjoy reading non-fiction books, being connected to the nature on the weekends.
